Alberta Dreams

Alberta Dreams is the only dream-fulfilling organization in Alberta that is dedicated exclusively to children with severe chronic or life-threatening medical illness. We are proud to provide a much-needed service to children and their families who are facing unimaginable challenges.

At Alberta Dreams, we understand the impact that chronic illness can have on a child's daily life. We define chronic illness as a medical condition that significantly affects a child's ability to carry out their daily activities. This impact can result from various factors such as frequent hospital stays, use of oxygen and/or ventilator machines, high doses of medications, or the need for significant medical intervention.

Our inclusion of chronic illness in our mandate sets us apart from similar organizations in Canada. We are a crucial resource for chronically ill children who do not qualify for a wish under other programs. Alberta Dreams believes that every child deserves a chance to experience the joy of having their dream come true and is an essential resource for chronically ill children in Alberta.

**We have fulfilled over 1250
dreams in nearly 40 years
for children in Alberta
facing severe chronic or life
threatening illnesses.**

Your Investment Makes Dreams Come True for Alberta Children

When you support Alberta Dreams, your investment goes directly toward creating unforgettable experiences and lasting memories for children living with severe chronic or life-threatening illnesses. Behind every dream fulfilled is a family facing unimaginable challenges, and your generosity helps bring them moments of hope, joy, and connection when they need it most.
